Comments:			

MAT EVALUATION:

Measurements in Sitting	Left	Right
A: Shoulder Width		H: Seat to Top of Shoulder
B: Chest Width		I: Acromium Process (Tip of Shoulder)
C: Chest Depth (Front - Back)		J: Inferior Angle of Scapula
D: Hip Width		K: Seat to Elbow
E: Between Knees		L: Seat to Iliac Crest
F: Top of Head		M: Upper leg length
G: Occiput		N: Lower leg length
++: Overall width (asymmetrical width for windswept legs or scoliotic posture)		O: Foot Length

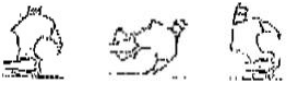

Additional Comments:

Hamstring flexibility:

Pelvis to Thigh angle accommodate greater than 90 **Thigh to calf angle** accommodate less than 90

DESCRIBE REFLEXES/TONAL INFLUENCE ON BODY:

EXPLAIN WHY PATIENT IS NON-AMBULATORY:

Goals for Wheelchair Mobility

- Independence with mobility in the home and mobility related ADLs (MRADLs) in the community.
- Independence with MRADLs in the community
- Provide dependent mobility
- Provide recline
- Provide tilt

Goals for Seating System

- Optimize pressure distribution
- Provide support needed to facilitate function or safety
- Provide corrective forces to assist with maintaining or improving posture
- Accommodate client's posture: current seated postures and positions are not flexible or will not tolerate corrective forces
- Client to be independent with relieving pressure in the wheelchair
- Enhance physiological function such as breathing, swallowing, digestion

Equipment Trial: (Must be of adequate duration to demonstrate independence for patient with previous dependent mobility.)

Describe Duration and Location of Trial:

Patient Demonstrated Ability To Use Equipment Safely & Efficiently Yes No Comments:

State why other equipment was unsuccessful:

RECOMMENDATIONS & JUSTIFICATION (Lowest Appropriate Group Must Be Recommended)

MOBILITY BASE	JUSTIFICATION	
Mfg: _____ Model: _____ Seat Width: _____ Seat Depth: _____ Can Be Grown To: (Must Complete) Seat Width: _____ Seat Depth: _____	<input type="checkbox"/> Provide transport from point A to B <input type="checkbox"/> Promote Indep mobility <input type="checkbox"/> Is not a safe, functional ambulator <input type="checkbox"/> walker or cane, inadequate	<input type="checkbox"/> Non-standard width/depth necessary to accommodate anatomical measurement <input type="checkbox"/> Other
<input type="checkbox"/> Manual Mobility Base	<input type="checkbox"/> Non-functional ambulator	
<input type="checkbox"/> Scooter/POV	<input type="checkbox"/> Can safely operate <input type="checkbox"/> has adequate trunk stability <input type="checkbox"/> Can safely transfer <input type="checkbox"/> Can not functionally propel manual wheelchair	
<input type="checkbox"/> Power Mobility Base	<input type="checkbox"/> Can not functionally propel manual wheelchair <input type="checkbox"/> Non-ambulatory <input type="checkbox"/> Can not functionally and safely operate scooter/POV	
<input type="checkbox"/> Stroller Base	<input type="checkbox"/> infant/child <input type="checkbox"/> Unable to propel manual wheelchair <input type="checkbox"/> allows for growth	<input type="checkbox"/> non-functional ambulator <input type="checkbox"/> non-functional UE <input type="checkbox"/> Indep mobility is not a goal at this time
Reasons This Particular WC was chosen for Patient ? 		
Why isn't a Lower Group Appropriate for Patient ? 		
Tilt Base or added ? Forward ? Backward ? Powered tilt on powered chair ? Powered tilt on manual chair ? Manual tilt on manual base	<input type="checkbox"/> change position against gravitational force on head and shoulders <input type="checkbox"/> change position for pressure relief/can not weight shift <input type="checkbox"/> transfers	<input type="checkbox"/> management of tone <input type="checkbox"/> rest periods <input type="checkbox"/> control edema <input type="checkbox"/> facilitate postural control <input type="checkbox"/> Other
Recline ? Power recline on power base ? Manual recline on manual base	<input type="checkbox"/> accommodate femur to back angle <input type="checkbox"/> bring to full recline for ADL care <input type="checkbox"/> change position for pressure relief/can not weight shift	<input type="checkbox"/> rest periods <input type="checkbox"/> repositioning for transfers or clothing / diaper / catheter changes <input type="checkbox"/> head positioning
<input type="checkbox"/> Transportation tie-down option	<input type="checkbox"/> To provide crash tested tie down brackets	
Elevator on Mobility Base ? Wheelchair ? Scooter	<input type="checkbox"/> increase indep in transfers <input type="checkbox"/> increase indep in ADLs	<input type="checkbox"/> raise height for communication at standing level <input type="checkbox"/> Other
Push handles ? extended ? angle adjustable ? standard	<input type="checkbox"/> caregiver access <input type="checkbox"/> caregiver assist	<input type="checkbox"/> allows "hooking" to enable increased ability to perform ADLs or maintain balance
Lighter weight required	<input type="checkbox"/> Self propulsion <input type="checkbox"/> lifting	<input type="checkbox"/> Other
Heavy Duty required	<input type="checkbox"/> user weight greater than 250 pounds <input type="checkbox"/> extreme tone <input type="checkbox"/> over active movement	<input type="checkbox"/> broken frame on previous chair <input type="checkbox"/> multiple seat functions <input type="checkbox"/> Other
Specific Seat height required Floor to seat height	<input type="checkbox"/> Foot Propulsion <input type="checkbox"/> transfers <input type="checkbox"/> accommodation of leg length	<input type="checkbox"/> access to table or desk top <input type="checkbox"/>

Foot support <input type="checkbox"/> adjustable Footplate <input type="checkbox"/> R <input type="checkbox"/> L <input type="checkbox"/> flip up <input type="checkbox"/> depth/angle adjustable	<input type="checkbox"/> Provide foot Support <input type="checkbox"/> accommodate to ankle ROM <input type="checkbox"/> allow foot to go under wheelchair base	<input type="checkbox"/> transfers <input type="checkbox"/> Other
Armrests <input type="checkbox"/> fixed <input type="checkbox"/> adjustable height <input type="checkbox"/> removable <input type="checkbox"/> swing away <input type="checkbox"/> flip back <input type="checkbox"/> reclining <input type="checkbox"/> full length pads <input type="checkbox"/> desk <input type="checkbox"/> pads tubular	<input type="checkbox"/> Provide Support with elbow at 90 <input type="checkbox"/> provide support for w/c tray <input type="checkbox"/> changes of height/angles for variable activities	<input type="checkbox"/> remove for transfers <input type="checkbox"/> allow to come closer to table top <input type="checkbox"/> remove for access to tables <input type="checkbox"/> Other
Side guards	<input type="checkbox"/> prevent clothing getting caught in wheel or becoming soiled	
Wheel size: Wheel Style: <input type="checkbox"/> mag <input type="checkbox"/> spokes <input type="checkbox"/> Other	<input type="checkbox"/> increase access to wheel <input type="checkbox"/> allow for seating system to fit on base	<input type="checkbox"/> increase propulsion ability <input type="checkbox"/> maintenance <input type="checkbox"/>
Quick Release Wheels	<input type="checkbox"/> allows wheels to be removed to decrease width of w/c for storage	<input type="checkbox"/> decrease weight for lifting <input type="checkbox"/> Other
Wheels rims/ hand rims <input type="checkbox"/> metal <input type="checkbox"/> plastic coated <input type="checkbox"/> vertical projections <input type="checkbox"/> oblique projections	<input type="checkbox"/> provide ability to propel manual wheelchair	<input type="checkbox"/> increase self-propulsion with hand weakness/decreased grasp
Tires <input type="checkbox"/> pneumatic <input type="checkbox"/> flat free inserts <input type="checkbox"/> solid	<input type="checkbox"/> decrease maintenance <input type="checkbox"/> prevent frequent flats <input type="checkbox"/> increase shock absorbency	<input type="checkbox"/> decrease pain from road shock <input type="checkbox"/> decrease spasms from road shock <input type="checkbox"/> Other
Caster Housing: Caster Size: Style:	<input type="checkbox"/> maneuverability <input type="checkbox"/> stability of wheelchair <input type="checkbox"/> increase shock absorbency <input type="checkbox"/> durability <input type="checkbox"/> maintenance <input type="checkbox"/> angle adjustment for posture	<input type="checkbox"/> decrease pain from road shock <input type="checkbox"/> decrease spasms from road shock <input type="checkbox"/> allows for feet to come under wheelchair base <input type="checkbox"/> allows change in seat to floor height <input type="checkbox"/>
Shock absorbers	<input type="checkbox"/> decrease vibration	<input type="checkbox"/> provide smoother ride over rough terrain
Spoke Protector	<input type="checkbox"/> prevent hands from getting caught in spokes	<input type="checkbox"/> Other
One armed device <input type="checkbox"/> Left <input type="checkbox"/> Right	<input type="checkbox"/> enable propulsion of manual wheelchair with one arm	<input type="checkbox"/> Other
Anti-tippers	<input type="checkbox"/> prevent wheelchair from tipping backward	<input type="checkbox"/>
Amputee adapter <input type="checkbox"/> Crutch/cane holder <input type="checkbox"/> Oxygen Cylinder holder <input type="checkbox"/> IV hanger	<input type="checkbox"/> provide support for stump/residual extremity <input type="checkbox"/> stabilize accessory on wheelchair	
Brake/Wheel lock extension <input type="checkbox"/> R <input type="checkbox"/> L		<input type="checkbox"/> increase indep in applying wheel locks
Other:		
Other:		

SEATING COMPONENT RECOMMENDATIONS AND JUSTIFICATION

Component	Manuf/mod/size	Justification	
Seat Cushion		<input type="checkbox"/> accommodate impaired sensation <input type="checkbox"/> decubitus ulcers present <input type="checkbox"/> prevent pelvic extension <input type="checkbox"/> low maintenance	<input type="checkbox"/> stabilize pelvis <input type="checkbox"/> accommodate obliquity <input type="checkbox"/> accommodate multiple deformity <input type="checkbox"/> neutralize LE <input type="checkbox"/> increase pressure distribution <input type="checkbox"/>
Seat Wedge		<input type="checkbox"/> accommodate ROM	<input type="checkbox"/> Provide increased aggressiveness of seat shape to decrease sliding down in the seat
Cover Replacement		<input type="checkbox"/> protect back or seat cushion	<input type="checkbox"/> Other
Mounting hardware lateral trunk supports headrest medial thigh support back seat	Fixed swing away for:	<input type="checkbox"/> attach seat platform/cushion to w/c frame <input type="checkbox"/> attach back cushion to w/c frame	<input type="checkbox"/> mount headrest <input type="checkbox"/> swing medial thigh support away <input type="checkbox"/> swing lateral supports away for transfers
Seat Board Back Board		<input type="checkbox"/> support cushion to prevent hammocking	<input type="checkbox"/> allows attachment of cushion to mobility base
Back		<input type="checkbox"/> provide lateral trunk support <input type="checkbox"/> accommodate deformity <input type="checkbox"/> accommodate or decrease tone <input type="checkbox"/> facilitate tone	<input type="checkbox"/> provide posterior trunk support <input type="checkbox"/> provide Lumbar/sacral support <input type="checkbox"/> support trunk in midline <input type="checkbox"/> Other
Lateral Pelvic/thigh support		<input type="checkbox"/> pelvis in neutral <input type="checkbox"/> accommodate pelvis <input type="checkbox"/> position upper legs	<input type="checkbox"/> accommodate tone <input type="checkbox"/> removable for transfers <input type="checkbox"/>
Medial knee Support		<input type="checkbox"/> decrease adduction <input type="checkbox"/> accommodate ROM	<input type="checkbox"/> remove for transfers <input type="checkbox"/> alignment
Foot Support		<input type="checkbox"/> position foot <input type="checkbox"/> accommodate deformity	<input type="checkbox"/> stability <input type="checkbox"/> decrease tone <input type="checkbox"/> control position
Ankle strap/heel loops		<input type="checkbox"/> support foot on foot support <input type="checkbox"/> decrease extraneous	<input type="checkbox"/> provide input to heel <input type="checkbox"/> protect foot
Lateral trunk Supports	<input type="checkbox"/> R <input type="checkbox"/> L	<input type="checkbox"/> decrease lateral trunk leaning <input type="checkbox"/> accom asymmetry <input type="checkbox"/> contour for increased contact	<input type="checkbox"/> safety <input type="checkbox"/> control of tone <input type="checkbox"/> Other
Anterior chest strap, vest, or shoulder retractors		<input type="checkbox"/> decrease forward movement of shoulder <input type="checkbox"/> accommodation of TLSO decrease forward movement of trunk	<input type="checkbox"/> added abdominal support <input type="checkbox"/> alignment <input type="checkbox"/> assistance with shoulder control <input type="checkbox"/> decrease shoulder elevation <input type="checkbox"/> Other
Headrest		<input type="checkbox"/> provide posterior head support <input type="checkbox"/> provide posterior neck support <input type="checkbox"/> provide lateral head support <input type="checkbox"/> provide anterior head support <input type="checkbox"/> support during tilt and recline <input type="checkbox"/> improve feeding	<input type="checkbox"/> improve respiration <input type="checkbox"/> placement of switches <input type="checkbox"/> safety <input type="checkbox"/> accommodate ROM <input type="checkbox"/> accommodate tone <input type="checkbox"/> improve visual orientation

Neck Support		<input type="checkbox"/> decrease neck rotation	<input type="checkbox"/> decrease forward neck flexion
Upper Extremity Support Arm trough Posterior hand support 1/2 tray full tray full tray	<input type="checkbox"/> R <input type="checkbox"/> L	<input type="checkbox"/> decrease edema <input type="checkbox"/> decrease subluxation <input type="checkbox"/> control tone <input type="checkbox"/> provide work surface <input type="checkbox"/> placement for AAC/Computer/EADL	<input type="checkbox"/> decrease gravitational pull on shoulders <input type="checkbox"/> provide midline positioning <input type="checkbox"/> provide support to increase UE functions <input type="checkbox"/> provide hand support in natural position
Pelvic Positioner		<input type="checkbox"/> stabilize tone <input type="checkbox"/> decrease falling out of chair/will not decrease potential for sliding due to pelvic titling <input type="checkbox"/> Prevent excessive rotation	<input type="checkbox"/> pad for protection over boney prominence <input type="checkbox"/> prominence comfort <input type="checkbox"/> special pull angle to control rotation <input type="checkbox"/> Other
Bag or pouch		Holds: <input type="checkbox"/> medicines <input type="checkbox"/> special food <input type="checkbox"/> orthotics <input type="checkbox"/> clothing changes	<input type="checkbox"/> diapers <input type="checkbox"/> catheter/hygiene <input type="checkbox"/> ostomy supplies <input type="checkbox"/> Other

Therapist Name/Title Printed:		
Therapist's Signature		Date:
Supplier's Rep/Title Printed		
Supplier's Rep Signature:		Date:

This is to certify that I, the above signed therapist have the following affiliations:

- This DME Provider
- Manufacturer of Recommended Equipment
- Patient's Long Term Care Facility
- None of the above

My signature below certifies that I agree with the recommendations above and order the equipment shown on the provider's itemized price list.

Physician's Signature:

Date:

Need patients chart notes.

7 Element Order

A physician may only write a prescription must contain the following seven elements:

- 1-Beneficiary's name
- 2-Description of the item that is to be ordered. This may be general e.g, "power operated vehicle(POV)," "power wheelchair," or "power mobility device" - or may be more specific.
- 3-Date Of completion or the face-to-face examination
- 4.peainent diasno'is/conditions that relate to the need for the POV or power wheelchair
- 5-length Of need
- 6-Physician's signature and date
- 7-Physician's NPI Number

The order needs to be filled out in the physician's hand writing throughout the order.

Mobility Assistive Equipment - Face to Face Examination Report

Functional Assessment			
	Question	Your Answers below must be justified by your narrative responses.	
1.	Does your patient have a mobility limitation that impairs participation in mobility Required Activities of Daily Living (MRADLs) in the home ?	<input type="radio"/> YES <input type="radio"/> NO	Go To Question 2 STOP - NO MAE
2.	Can their limitations be compensated by the addition of MAE to improve the ability to participate in MRADLs in the home ?	<input type="radio"/> YES <input type="radio"/> NO	Go To Question 3 STOP - NO MAE
3.	Is your patient or their caregiver capable and willing to operate the MAE safety in the home ?	<input type="radio"/> YES <input type="radio"/> NO	Go To Question 4 STOP - NO MAE
4.	Can their mobility defliect be safety resolved by a cane or walker ?	<input type="radio"/> YES <input type="radio"/> NO	STOP - ORDER CANE OR WALKER GO TO QUESTION 5
5.	Does your patient's home environment support use of a wheelchair or POV ? (Home assessment to be completed by Medical Equipment Supplier)	<input type="radio"/> YES <input type="radio"/> NO	GO TO QUESTION 6 STOP - NO MAE
6.	Does your patient have the upper extremly function to safety propel a manual wheelchair to participate in MRADLs in the home ?	<input type="radio"/> YES <input type="radio"/> NO	STOP - ORDER MANUAL WHEELCHAIR GO TO QUESTION 7

7.	Does your patient have sufficient and trunk stability to operate a POV in the home ?	<input type="radio"/> YES <input type="radio"/> NO	GO TO QUESTION 8 GO TO QUESTION 9
8.	Is your patient able to safely maneuver a POV in their home ?	<input type="radio"/> YES <input type="radio"/> NO	GO TO QUESTION 8 GO TO QUESTION 9
9.	Does your patient need the additional features (i.e. optimal maneuverability, ease of use, upgradable/adaptable seating etc.) of a power wheelchair to participate in MRADLs in the home.?	<input type="radio"/> YES <input type="radio"/> NO	Go To Question 10 STOP - NO MAE
10.	Is your patient safe and able to maneuver a power wheelchair in the home ?	<input type="radio"/> YES <input type="radio"/> No	STOP - ORDER PWC STOP

Medication Transfer Sheet/Release of Responsibility

Name of Facility: _____

Name of Resident: _____

Date of Release: _____

Expected Date of Return: _____

Name of Medication	Pass Time	RX Number	Strength	# of Meds Released	# of Meds Returned

Transferring medications for home visits, outings, etc. Taken from Community Care Licensing technical support program medications.

- When a consumer/resident leaves a facility for a short period of time during which only one dose of medication(s) is/are needed, the facility may give consumer/resident medications to a responsible person/authorized representative in an envelope (or similar container) labeled with the facility's name and address, consumer/resident's name, name of medication(s), and instructions for administering the dose.
- If consumer/resident is to be gone for more than one dosage period, the facility may:
 - a. Give the full prescription contained to the consumer/resident, or responsible person/authorized representative.
 - OR
 - b. Have the pharmacy fill a separate prescription or separate the existing prescription into two bottles.
 - OR
 - c. Have the consumer's/resident's family obtain a separate supply of the medication for use when the consumer/resident visits with the family.

The resident, and/or responsible party assumes responsibility for the resident and for assuring that all medication (if any) are taken appropriately, during the time the resident is signed out of the facility. The facility is not responsible for any accidents, illnesses or injury during this time. My signature indicates that I have received the above listed medications, and have been instructed in their use. I also agree to return any unused medications when the visit is concluded.

Signature of staff releasing medications: _____

Received by: _____ Date: _____ Time: _____

Signature of person returning unused medications: _____

Staff signature of count on return: _____ Date: _____ Time: _____

Medicare requires that services be authenticated by the persons responsible for the care of the beneficiary. The treating physician's/non-physician practitioner's (NPP's) signature on a note indicates that the physician/NPP affirms the note adequately documents the care provided. If the signature is illegible, MACs, UPICs, SMRC, and CERT shall consider evidence in a signature log, attestation statement, or other documentation submitted to determine the identity of the author of a medical record entry. If the signature is missing from any other medical documentation (other than an order), MACs, SMRC, and CERT shall accept a signature attestation from the author of the medical record entry. Providers should not add late signatures to the medical record, (beyond the short delay that occurs during the transcription process) but instead should make use of the signature authentication process. Note: Contractors cannot request or accept an attestation for a late signature for an order that is not signed. For complete CMS requirements, see to CMS Internet Only Manual (IOM), Publication 100-08, Chapter 3, Section 3.3.2.4.

This attestation form is provided as a courtesy for providers to refer to and/or use. This is not a required form. Providers may develop their own attestation form, if desired.

Beneficiary Information	
Beneficiary Name	
Date of Birth	Medicare Beneficiary Identifier (MBI)
Attestation Statement	
<p>I, _____ (print full name of physician/practitioner), hereby attest that the medical record entry for _____ [date(s) of service/visit/progress note] accurately reflects signature/notations that I made in my capacity as a(n) _____ (the author's credentials, e.g. MD) when I treated/diagnosed the above listed Medicare beneficiary. I do hereby attest that this information is true, accurate and complete to the best of my knowledge and I understand that any falsification, omission or concealment of material fact may subject me to administrative, civil or criminal liability.</p>	
Signature of Medical Record Author	Date of Signature

In order to be considered valid for Medicare medical review purposes, an attestation statement must be signed and dated by the author of the medical record entry. Reviewers will not consider attestation statements where there is no associated medical record entry or someone other than the author (even a partner in the same group practice) of the medical record entry in question signs this statement. Reviewers shall NOT consider attestation statements from someone other than the author of the medical record entry in question (even in cases where two individuals are in the same group, one should not sign for the other in medical record entries or attestation statements).
